

Importance of your medications during the coronavirus (COVID-19) spread

- **Stay home!** Switch your medications and supplies to mail order service or home delivery. Ask for 90 day supplies to help you stay at home!
- **Fill your chronic medications early:** check with your pharmacy to see if you are eligible
- **Take all of your medications regularly** as prescribed - this is very important to **keep you healthy!**
- Make sure you have **refills left** on your prescriptions
- Talk to your pharmacist about the **best ways to lower costs** of your medications
